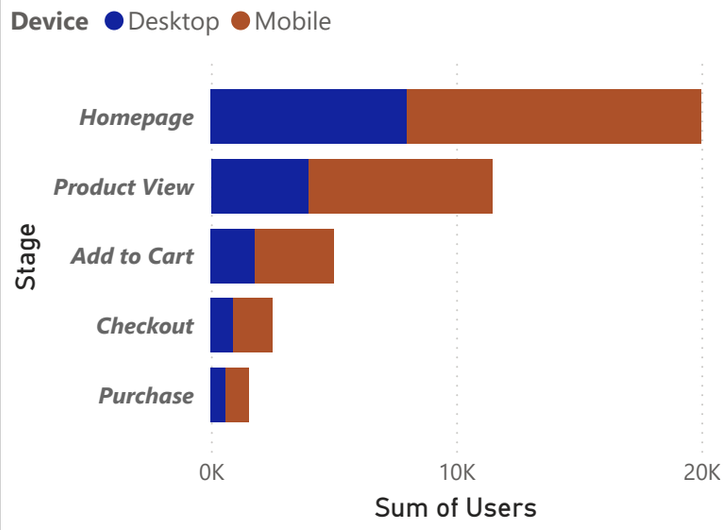
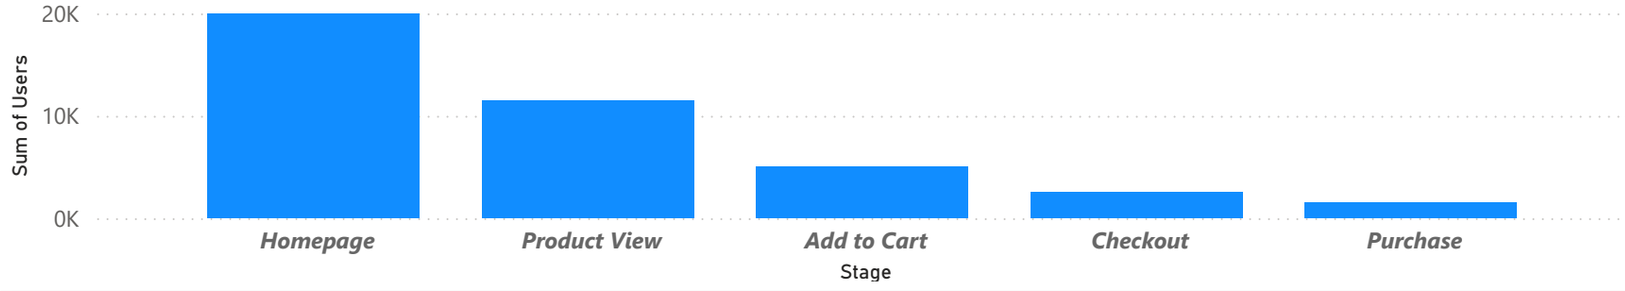
Device-wise Funnel Drop-off Analysis



User Distribution Across Funnel Stages



🔍 Key Insights:

- *Significant drop from Product View to Add to Cart*
- *Checkout stage shows relatively better conversion*
- *Mobile users show higher drop-off*
- *Overall conversion rate is low (~8–10%)*

💡 Recommendations:

- *Improve mobile UX (faster loading, better layout)*
- *Optimize product pages (images, reviews, pricing clarity)*
- *Reduce checkout friction (guest login, fewer steps)*
- *Retarget users who abandon carts*
